Summary of State Criminal Laws for COVID Crime Responsibility & Accountability Projects Re: Hospital Homicides

These are suggested crimes that could be presented to State AGs/County DAs for investigation of COVID criminal charges for Accused individuals such as: local hospital administrators, Anthony Fauci, Deborah Birx, Rochelle Walensky, Cliff Lane, Francis Collins, Janet Woodcock, Robert Redfield, Ralph Baric, Peter Daszak, Rick Bright, Stephen Hahn, Peter Hotez, etc.

To Note: only the Florida, Texas, Missouri, Oklahoma, Pennsylvania, and Louisiana crimes have been more thoroughly evaluated and already presented to State AGs/county DAs by the Vires Law Group and joining attorneys. Below are suggestions of potentially applicable crimes for all 50 states, however we did not investigate case law, jury instructions, or nuanced definitions of the elements of all the below crimes that could preclude certain crimes from being applicable – we only reviewed the statutes on face value. This is meant as a starting point.

The states highlighted in green are where we have already submitted petitions for investigation and prosecution – if you know victims or attorneys who would like to join our efforts feel free to put them in touch! Also feel free to reach out if you'd like to use one of our criminal petition templates for your state – on our team, Mimi Miller has compiled a fairly large volume of publicly available evidence to show probable cause for the alleged crimes to provide a basis to begin an investigation into the Accused (email to Vires Law Group ahaidmann@vireslaw.group and mimi.miller2@protonmail.com).

Pardons: The Federal Pardons issued by the Biden Administration only apply to federal crimes, not state crimes. Further, the acceptance of a pardon – as Fauci did – has been determined to be evidence of guilt by the US Supreme Court. See *Burdick v. United States*, 236 U.S. 79 (1915) (“The latter [a presidential pardon] carries an imputation of guilt; acceptance a confession of it.”).

Homicide

- Iowa
- 707.3A
 - Solicitation to Commit Murder (soliciting another to commit murder under 707.1 – the killing of another with malice aforethought either express or implied) [would need to make the connections of hospital admin and possibly doctors/nurses as well acting knowingly to cause deaths per the policies – look to hospital & provider financial incentives by fed agencies to follow policies]
 - 707.5(b)
 - Involuntary Manslaughter
- Of note:
I think prosecution for terrorism will not work in Iowa because the statute narrows terrorism to an action such as “shooting, throwing, launching, discharging, or otherwise using a dangerous weapon at, into, or in a building, vehicle, airplane, railroad engine, railroad car, or boat,
- 726.24
 - Elder Abuse [this includes not allowing the elderly to see visitors/family]

Of note, a “caregiver” is defined as someone who by K or voluntarily or through employment provides care for an individual. “Caretaker” is analogous.
 - 726.26
 - dependent adult abuse
 - 726.27
 - Wanton neglect of a resident of a health care facility
 - 726.28
 - wanton neglect or nonsupport of a dependent adult
- Labor Trafficking
- IC 35-43-5-4 – Fraud – of Medical Records
 - IC 35-45-6-2 – Racketeering, Corrupt Business Influence
 - IC 35-42-3-3 – Criminal Confinement
 - IC 35-42-2-2 – Criminal Recklessness
- See criminal liability/responsibility of directors/superiors
 - 703.4
 - 714.16
 - Consumer frauds [potentially for vaccine advertising and remdesivir ads, etc.]
 - 710.1
 - Kidnapping
 - this will be hard to prove the restraint with necessary intent by hospitals/hospital staff/policies by admin
 - 710.7
 - false imprisonment
 - hard to show the hospital staff enacting admin policies did not have a reasonable belief that they didn’t have the authority to do so

occupied by another person, or within an assembly of people.”

So even though we have coercion of the civilian population & influence of government policy by intimidation or coercion – the statute doesn’t allow for the non-”firing a projectile” type of terrorist activity like we have with the federal gov’t.
